RUPER ANGELO B. REYES

Mobile No.: 647-878-9251 • Email Address: ruperangelo@gmail.com

PROFESSIONAL SUMMARY:

Experienced Software Developer with a strong background in designing, developing, maintaining, and supporting software applications. Skilled in software development, system integration, troubleshooting, optimization, and database management. Proficient in analyzing technical requirements, developing reliable and maintainable solutions, and collaborating with teams to support business and technical needs. Detail-oriented problem solver with a strong commitment to writing quality software and continuously improving technical skills.

KEY SKILLS:

- **Programming:** Java, C#, C++, JavaScript, TypeScript, VB.NET, ASP.NET, .NET Core, VB6
- **Frontend:** React.js, Vue.js, HTML5, CSS3, Bootstrap, jQuery, Responsive Design
- **Backend & APIs:** ASP.NET MVC/Web API, RESTful APIs, SOAP, JSON, XML, Authentication, Client-Server Architecture
- **Databases:** SQL Server, MySQL, PostgreSQL, MongoDB, DB2, Database Design, Stored Procedures
- **Tools:** Eclipse IDE, Visual Studio, VS Code, Git, GitLab, GitHub, Jira, Confluence, SharePoint
- **Development Practices:** OOP, Design Patterns, Agile/Scrum, Software Testing, Debugging, Troubleshooting, CI/CD
- **Web & Integration Technologies:** REST APIs, SOAP, JSON, XML, AJAX, CORS, API Integration
- **Cloud & Platforms**: AWS, Microsoft Azure, Google Cloud Platform, IBM Cloud
- **Other Technical Skills**: System Integration, Performance Optimization, Cross-platform Development (Windows, Linux, Mobile) Mainframe Systems Exposure
- **Professional Skills**: Problem Solving, Analytical Thinking, Team Collaboration, Communication, Adaptability, Time Management

EDUCATION:

Computer Programming and Analysis September 2023 – Current
Advance Diploma
Fanshawe College, London, Ontario
Avg GPA of 4.0

Bachelor of Science in Computer Engineering June 1997 – April 2002
University of the Immaculate Conception
Davao City, Philippines
Avg GPA of 3.9

WORK EXPERIENCES:

Software Developer (Student Position) January 2025 – August 2026
1st, 2nd and 3rd Coop
Canada Life Assurance Company, London ON.

- Supported, troubleshot, and maintained enterprise-grade applications across Windows and mainframe environments.
- Collaborated with business analysts, developers, and solution architects to review applications and identify optimization opportunities.
- Assisted in the design, development, integration, and testing of software enhancements using **.NET** and **MS SQL Server**.

RUPER ANGELO B. REYES

Mobile No.: 647-878-9251 • Email Address: ruperangelo@gmail.com

- Diagnosed and resolved application issues through root cause analysis, improving system reliability and performance.
- Contributed to **application decommissioning and retirement initiatives**, including impact assessment, validation, and documentation.
- Supported **Technology Control Program (TCP)** activities by executing test cases, validating results, and ensuring compliance with control requirements.
- Used **GitLab, Visual Studio, Eclipse, Jira, Confluence, SharePoint, and Microsoft Teams** to support agile development, version control, and documentation.

Senior Software Developer April 2009 - July 2023
Southwood Mindanao Corporation, Philippines

- Led the development of mission-critical software systems, including **Accounting Systems** and **ERP Inventory Management**, improving operational efficiency and reducing manual errors.
- Directed cross-functional teams in the integration of biometrics into the **Payroll System**, enhancing payroll accuracy and reducing processing time by 50%.
- Designed and implemented a highly optimized **Point of Sales system**, which resulted in a 20% increase in transaction speed and improved customer experience.
- Collaborated with hardware engineers and network administrators to ensure smooth software-hardware integration, significantly reducing system disruptions.
- Spearheaded the analysis and optimization of existing systems, driving an improvement in system performance through effective code enhancements using **C#.Net**, **VB.Net**, **VBA**, **MS SQL**, and **Crystal Reports**.
- Proactively identified and resolved complex software issues, minimizing downtime and ensuring reliable business operations.
- Championed continuous system improvements, staying abreast of industry trends and implementing upgrades that boosted overall system efficiency by 15%.

Software Developer August 2005 - March 2009
Davao Unified Corporation, Philippines

- Developed and maintained **Accounting and ERP Systems** that streamlined financial reporting and inventory management. This improved financial accuracy and reduced stock discrepancies.
- Led the optimization of the **Point of Sales system**, improving transaction speed through efficient coding in **C#.Net**, **VB.Net**, **VB6**, **MS SQL** and **Crystal Reports**.
- Designed a custom **Payroll System**, integrating biometric tracking for employee attendance. This solution minimized payroll errors and reduced processing time.
- Collaborated with hardware and network teams to ensure smooth system integration, enhancing overall system performance and minimizing operational disruptions.
- **Troubleshot and debugged** software issues, reducing system downtime by 25% and ensuring reliable business operations.
- Enhanced system functionality by implementing new features based on user feedback and emerging industry trends, driving a 10% improvement in user satisfaction.
